Corporate Profile

When you see an ad online that pushes you to the store, chances are we put it there.

From the beginning, MaxPoint had a clear vision: to drive in-store sales for advertisers by helping them reach the right neighborhoods online for their local, regional, and national campaigns. We worked hard to develop advanced digital advertising technology—the kind that uses complex algorithms and the latest in real-time data to pinpoint and reach the consumers most likely to buy products.

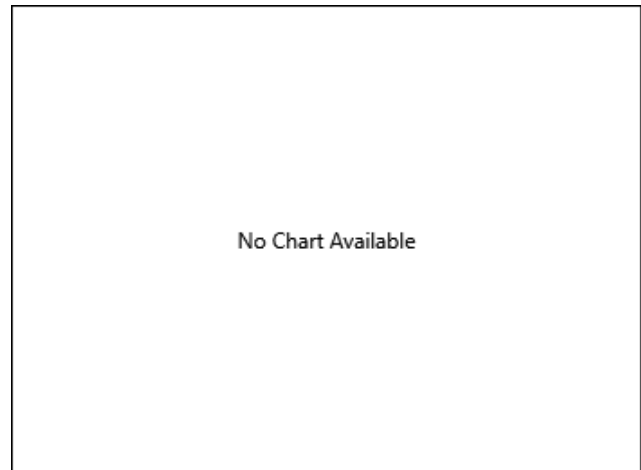

We have worked with each of the top 20 leading national advertisers and each of the top 10 advertising agencies in the United States as ranked in 2016 by Advertising Age.
